No. S.C. 46/23

Station Hospet. *Dated the* 20th November 1923.

From (Name) M. R. Ry. Dewan Bahdur, T.Kothandaram Naidu, Garu,

(Designation) Chairman, Municipal Council, Hospet.

To The Secretary to the Government of Madras,

Local Self, Government Department.

Sir,

A

(10) With reference to G.O. No. 1470 Mis, L & M dated 26-4-23 and 2366 L.M. dated 24-10-23 directing the removal of encroachments on the trunk road, I have the honour to forward herewith a copy of the Councils resolution No. 179 dated 19-11-23. Up to some distance the said communication is lined with houses on both sides There is no trace of its original limits beyond a few morgosa trees which are apperently the remnants of the old avenues planted when the road was formed. In the portion known as Kanchagarpet there are two trees on one side and two on the other. The former are beyond houses and the latter are encroached upon by houses. The road here varies in width from 20'-8" to 31'-0" . In the

the portion called the mainbazar street there are 9 treeson one side and six on the other. All these are substancial buildings some fourteen of them are storied houses . Where the road is broad - enough setting them back seems to be undesirable . To some di----- distance it varies from 44'-2" to 68'-4" . The bit next to it is --- 25-6" to 38' Feet. All these measurements are from the edges of the - front revetments of the side drains which are 1-9" wide.

2. How long these encroachments are in existance no one can say There is no survey record of the road . The ~~side drains were~~ ----- apparently ~~were~~ built after the Circle Boards Act of 1871 had come into operation. The council does not know what to do . Section 182 Ae (2) Act V of 1920 throws the burden of proving that the enroach--ments are more than sixty years standing on the parties concerned. As the road is Government property held in trust by the Municipality the 30 thirty years period of limitation allowed for the Municipal ----- properties do not apply. To issue notices under this section the --- Chairman must know the exact measurements of the road margins ----- built upon . He has no means of ascertaining them . I do not know - if the Revenue or the survey ~~departments could do it . If either of~~ them suceeds the next difficulty to over-come will be to find the -- ~~where withal~~ to pay for the houses demolished. That would amount up to a large sum. Two well built temples will have to be set back ---- along with the houses . One of them dedicated to Kalamma is in ----- Kanchagar pet and the other housing Basweswara is in the Main Bazar street . ~~If these~~ cannot be touched the advantage of setting back houses will be minimised to a certain extent. I solicit the orders of Government as to what course the Council should pursue.

I have the honour to be
Sir,
~~Your most obedient servant~~

Yo Chandramouli

Chairman.

Sir,

Enclosures

Encroachments - Trunk roads - Municipality-Hospet.

Ref supra

Your memo No.28125-1 L & M. dated 1-12-23.

I resubmit the file with a copy of the remarks of the Sub Collector Hospet. I agree with him.

K.K.R.28-1-24.

For Collector. 28.1.24

AR

Copy of letter D.Dis.51 dated 19-1-24 from the Sub Collector of Hospet.

Trunk road-encroachments - Hospet Municipality.

Your M. Reference C.No.6005/23-B-4. dated 8-12-23 together with a copy of G.O.No.1470 Mis. L. & M. dated 26-6-23 obtained from the Municipal Chairman is herewith enclosed./

I inspected the road on 12-1-24. All the encroachments are of long standing and cannot be evicted without an a amount of trouble and expense which is entirely out of the question. There is no plan or other record to show the original limits of the road and the exact measurements of the road margins built upon. The Municipal Council has already widened the street as far as possible without these radical changes.

22-4-24

Letter from the Director of Survey, R.O.C. No. 95-R/F. of 24, dated the 9th April 1924.

Please see Board's Reference No. G 415-24-1, dated the 18th February last.

The survey of the town does not seem to be necessary as the point at issue is the determination of the limits of the trunk roads passing through the town. A street survey would secure this.

2. The Amins Field Books prepared during the Initial Survey, should help to determine the proper road limits and I am endeavouring to obtain these records. They were sent to the Tahsildar of Hospet in 1892 and acknowledged to be in his possession in 1915 but he says he has not got them. I will report again shortly. Meantime - Government may be advised as suggested in paragraph 1 and asked to - obtain the approximate length of the roads and streets to be surveyed so that an estimate of cost may be supplied.

Hospet.

To The Secretary to the Government of Madras,
Local self Government Department.

Sir, With reference to Government memorandum No. ~~15237~~ 13907-1 L&M dated 23rd, may 1924, I have the honour to state that the total milage of the roads exclusive of the Trunk road is M 9— 7 furlongs, 30 yards. Some of these roads require widening before they are surveyed . An idea of the cost may be given to enable the Council to come to a decision. A portion of the Trunk raod passing through the Kanchagarpet was widened in 1922-23. All pials and other obejectionable encroachments in the remaining portion were removed some 5 years ago.

~~Reference.~~ Resolution

Read the following paper:

Letter from W.F.Bateman, Esq., Ag. Director of Survey, R.O.C.No.95-R/F. of 24, dated the 21st June 1924.

In reply to Board's Reference No.G.1284/24-1, dated the 30th May 1924, I have the honour to state that the uniform cost rate for the survey of streets including roads and lanes, works out to Rs.175 a linear mile.

2. The length of the trunk road is 2¼ linear miles and that of the other roads is 10 linear miles; therefore, the total cost of their survey would be Rs.175 x 12¼ = Rs.2,144 or say Rs.2,200.

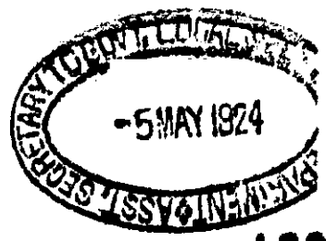
~~A draft memo is~~
~~Sent for approval.~~



13907

The Board of Revenue wants information as to the approximate length of the roads and streets to be surveyed for estimating the cost of the survey. The question of survey first arose from the reporting Chairman that the encroachments on the trunk road could not be detected for want of plans and records. It will therefore seem sufficient to know the length of the trunk road passing through the municipality. This is ~~known to be~~ 2 m 1 f 954 ds. The question of removing the encroachments on other roads and streets has not been raised by the Chairman. It is for consideration whether the information

as to the approximate length of other roads and streets to be surveyed should be obtained now.

SS
7.5.24 COK

The length of the trunk road may be ~~reported~~ intimated to the Bd of Rev & the Bd requested to report the estimated cost of the Survey of that road.

The Chn may be ~~informed of~~ sent the correspondence which has taken place & asked whether the Council would like to have a survey of the other roads & Streets also made.
